MICHAEL
MCCANN
SENIOR SOFTWARE ENGINEERING MANAGER

PROFILE

Senior technical professional and leader with a proven track record of transformative leadership; bridging the gap between start-up culture and corporate growth.

WORK EXPERIENCE

RandallReilly | Software Engineering Manager
April 2020 - Present

Lead a cross-functional team composed of on-shore, off-shore and near-shore team members to success across multiple projects with a high level of quality. Implemented processes that raised DORA metrics across the board from low to high and elite.

Iron Solutions | Senior Software Engineer
Jan 2018 - April 2020

Led multiple development projects from requirements gathering through release while maintaining existing legacy applications written in a number of different tech stacks.

United Methodist Publishing House | Senior Software Engineer
February 2014 - December 2017

Responsible for maintaining and enhancing multiple critical business systems and e-commerce systems.

Ceres Terminals | Contractor
November 2013 - February 2014

The Tennessean (Gannett) | Software Developer
2007 - November 2013
